Paralympic Shooting

- Perhaps the most similar to able-bodied version with similar rules, equipment matches, etc.
- Airguns are EASY! Safe, quiet, affordable, etc.
- IPC events also include .22 rifle & pistol with Shotgun and VI coming
- Participants may also be interested in other shooting events: High Power, 3 Gun, “Speed” pistol events, Cowboy Action, Hunting, etc.
-
- IPC aggregates athletes into 2 classes:
- SH1 is the catch-all and SH2 is for Upper body disabilities
- Backrest height rules create similar levels of stability.
- Some athletes eligible for both Olympic and Paralympic competitions
